## Shaman and Storyteller

### Susi Wolf Is...

Susi Wolf brings ancient shamanism to a modern world with humor and feeling. Susi is a healer and a professional storyteller with Eastern Band Cherokee/Celtic heritage who uses multiple healing modalities for positive change. In addition, she is an intuitive energy healer, counselor, workshop trainer, writer, artist, life coach, Law of Attraction facilitator, EFT Tapping practitioner, and hypnotherapist.

### What Is Shamanism?

The word "Shaman" comes from the Tungist tribe in Siberia and translates as "one who sees in the dark" or "healer". It is almost indefinable because its meaning changes from person to person, culture to culture. But the shaman is a healer, devoted to the ancient teachings. Susi is accustomed to traveling between the earthly world and the spirit world to tend to the needs of those with whom she works. With drum...with rattle...with stories, Susi is led by Creator to the Path of the Unknown.
