

Storytelling Birthday Parties

MAKING MEMORIES WITH STORIES!

Imagine planning a **wonderful birthday party** for your child and then trying to figure out how to entertain all the guests? There are lots of performers to choose from, so why not choose **one that is unique?**

A storytelling birthday party is the answer!

All children love stories and **Susi Wolf** is a seasoned entertainer who understands that. She is a former clown and magician so her skills are **professional**. She utilizes her many years of theatrical experience to make your child's birthday party an event to remember. **Her stories are enjoyable and wholesome.**

She is a storyteller who loves her art!

Susi Wolf's one-hour show will consist of

- **FUN, INTERACTIVE AND ENTERTAINING STORYTELLING (1/2 HOUR)**
- **BALLOON ART (1/2 HOUR)**

STORYTELLING

Using props, puppets and more, **Susi Wolf's storytelling programs are fun and interactive**, as well as offering learning the wonder of oral tradition. All stories used are age-appropriate and enjoyable experiences with folktales from other cultures all over the world. Because Susi Wolf has a strong zoological background (she even worked for Jane Goodall conducting chimp behavior studies), she incorporates her animal education experience into storytelling events. Using puppets, animal biofacts and multicultural animal tales, this is **entertaining and educational for all audiences**.

BALLOON ART

As a former clown, **Susi Wolf** utilizes her balloon art skills to entertain children and adults alike. Her **creations are fun and colorful and they come to life** as she draws faces on them. She also puts them on long straws so they are easier to carry (and away from children's mouths for safety reasons). For adult events, teenagers and adults also delight in her balloon hats – each one is a custom fit with a wacky flair.
